Meso Peel Melanin

Anti-photoaging and hyperpigmentation properties

Azelaic acid 20% + Resorcinol 10% + Phytic acid 6%

Azelaic Acid is effective in the reduction of melasma, post-inflammatory hyperpigmentation, plays an important depigmenting and inhibitory action against keratinocytes. It has antibacterial, anti-inflammatory and seboregulatory properties.

Resorcinol is a phenolic derivative with keratolytic and regenerating properties, it fights melanin hyperpigmentations and has a whitening effect.

Phytic Acid powerful chelator of copper that encourages tyrosinase enzyme inhibition and has a depigmenting effect.

Meso Peel Melanin

50 ml
pH 3.0
Hydroalcoholic gel

Indications:

- superficial and epidermal pigmented lesions
 - solar lentigos
 - ephelides
 - dull skins or skins with uneven tone
- it is suitable for areas of the body with hyperpigmentation

Tip:

- it is necessary to prescribe a home treatment to optimise the result (Meso Lift and Protect and Meso Pigment Reduce)

Each pack contains a neutralizing post-peel solution.

Meso Peel Acne

Anti-fungal and anti-acne properties

Azelaic acid 20% + Salicylic acid 20%

Azelaic Acid is effective in the reduction of melasma, post-inflammatory hyperpigmentation, plays an important depigmenting and inhibitory action against keratinocytes. It has antibacterial, anti-inflammatory and seboregulatory properties.

Salicylic Acid is a low hydrophilic beta-hydroxyacid, acting as a keratolic and sebum regulator.

It has anti-inflammatory, antimicrobial, astringent and anti-aging properties.

Meso Peel Acne

50 ml
pH 3.0 Hydroalcoholic gel

Indications:

- actinic keratosis
- comedonic and inflammatory acne
- middle-grade acne scars
- hyperpigmentation
- rosacea

Each pack contains a neutralizing post-peel solution.

Professional use: instructions

You have to prepare the skin properly before undergoing peeling (MESO PURE PEEL, MESO LIFT AND PROTECT or Mesococktail). It is necessary to protect the treated area with a product with a high protection factor and rich in moisturizing and elasticizing substances (MESO LIFT AND PROTECT).

Step 1: Preparation

- Cleanse the area to be treated, carefully removing the makeup
- Pre-procedure cleansing solution / wipe (Meso Pure Peel)

Step 2: MESO PEEL PROTECTION

Protect sensitive areas (periocular area, lips, nasal mucosa formula based on moisturizing and protective agents)

Step 3: APPLY MESO PEEL APPLICATION

- Apply a thin layer of MESO PEEL ACNE or MESO PEEL MELANIN to the whole area with a soft fan shaped brush and leave it on the skin according to application instructions for each area*.

Step 4: MESO PEEL STOP

Remove the peel by neutralizing it with water and the Peel Stop on a cotton pad. (mono ingredient or cocktail)

- Neutralizing
- pH 8.7
- **Actives:** Baking soda, Aloe vera, Bisabolol
- Neutralizes the action of chemical peels, rebalancing the skin

Step 5: Reparation

Post-peel hydrogel patch mask (MESO ANTI-AGE MASK)
Leave the mask on for 15 min, for young skin and up to 40 min. for mature skin.

Hydrogel Face Mask, easy and fast use (pre-cut). It's 3D reticular structures ensures hours of maximum adhesion to the skin. They are dampened with active ingredients specially selected for treatment of different type of skin. Soothing, moisturizing the skin and do not cause irritation.

Step 6: Final procedure

Moisturizing sun protection SPF50+ (MESO LIFT AND PROTECT)
Apply a thin layer on the treated area. Follow up with a light mineral powder if necessary. MESO LIFT AND PROTECT is a photoprotector suitable for everyday use. Ideal for dry hyper-reactive skin, photodermatitis, photosensitivity. MESO LIFT AND PROTECT is a multifunctional product. Besides the presence of effective sunscreens against UVB and UVA rays, the formula has been enriched with precious active ingredients, suitable to guarantee:

- Protection against UV rays
- Moisturization (SYN@-AKE, HYALURONIC ACID Low Molecular Weight (5-10 kDa), COLLOIDAL OATMEAL)
- Soothing (Aloe Vera)

Tips*

Recommended maximum application times (minutes):
The application in layers and the exposure time depend on the type of thickness, skin conditions and the desired therapeutic result.

Cocktails	face	neck	body
Meso Peel Melanin	5 min.	2 min.	5 - 7 min.
Meso Peel Acne	10 min.	2 min.	5 min.

Important

ALWAYS store the Peeling Kit in a refrigerator and in the original alu bag to avoid daylight, to keep the PH value unchanged.
